Education

University of Michigan, Ann Arbor, MI, Expected Spring 2027

MS, Computational Epidemiology and Systems Modeling

Northwestern University, Evanston, IL, September 2018-June 2022

BS, Economics, Mathematical Methods in the Social Sciences (MMSS); ISEN Certificate in Energy and Sustainability

Cumulative GPA: 3.89

Work Experience

Research Assistant, University of Michigan Department of Epidemiology, August 2025-Present

Assists Prof. Jennifer Head with research regarding environmental exposures and health outcomes, leveraging R and SAS to analyze millions of records provided by the Centers for Medicare and Medicaid Services (CMS) for the purpose of modeling the impact of extreme weather events on infectious disease

Data Science Consultant, AArete Consulting, January 2023-August 2025

Developed first-to-market tool for AI-powered healthcare contract processing used by multiple of the largest national healthcare payers on hundreds of thousands of documents; implemented multiple AI chatbot solutions for internal and client-facing initiatives; created data model for reconciling millions of EDI payment transactions within Medicaid enrollment data; advised management consultants on an ad-hoc basis for data analytics on healthcare claims

Data Analyst, AArete Consulting, July 2022-December 2023

Developed SQL queries, analyzed data and trained machine learning models in Python, and built PowerBI dashboards to provide executives at healthcare clients with cost-of-care assessments, payment integrity analyses, and contract configuration summaries

Data Analytics Intern, AArete Consulting, May 2021-June 2022

Supported various cost-reduction initiatives for healthcare clients by developing queries in SQL; built an R dashboard reporting COVID-19 vaccination uptake in the state of California with predictive modeling

Research Assistant, Northwestern University Department of Economics, July 2020-March 2021

Assisted Professors Gaston Illanes and Vivek Bhattacharya with their econometric work on M&A

Technical Skills: Python, SQL, R, AWS, LangChain/LLM APIs, Linux, ArcMap/ArcGIS, STATA, SAS
